REQUEST FOR RECONSIDERATION

Sir:

In response to the final office action mailed August 26, 2005 and the Advisory Action mailed November 25, 2005, Applicant respectfully requests RECONSIDERATION of this application. Reconsideration is requested in view of the ADVISORY ACTION ERRONEOUSLY FAILING TO REFER TO THE AFFIDAVIT/DECLARATION FILED BY APPLICANT on 11/2/2005.

Applicant STRONGLY DISAGREES with the Examiner's statement on page 2 of the Advisory Action that "As explained...the silicon dioxide crystal sphere of TENSCAM will function to reduce the beam size and amplify and diffuse the beam just as it does in the instant device..." This statement is incorrect in view of Applicant's Affidavit/Declaration that was filed.

Applicant's previously filed DECLARATION/AFFIDAVIT UNDER 37CFR 1.132 CLEARLY PROVIDES EVIDENCE THAT THERE WERE SEVERAL VERSIONS OF A TENSCAM UNIT by the APPLICANT, and that the FIRST TIME A TENSCAM UNIT WAS PUBLICLY DISCLOSED WITH A "SPHERE CRYSTAL LENS" WAS OCTOBER 12-14, 2003. CLEARLY, THE USE OF A "SPHERE CRYSTAL LENS" WAS AFTER THE FEBRUARY 27, 2002 FILING DATE OF THE SUBJECT PATENT APPLICATION.

Applicant again includes with this response the AFFIDAVIT/DECLARATION AND TWO PAGE APPENDIX that was filed on 11/2/2005.

THE DECLARATION/AFFIDAVIT IS PRIMA FACIE EVIDENCE FOR REMOVING TENSCAM AS PRIOR ART AGAINST ALL "SPHERE CRYSTAL (TYPE) LENS" FEATURES OF THE CLAIMS. IT IS THUS IMPROPER FOR THE EXAMINER TO MAINTAIN THIS REJECTION OVER THE SUBJECT CLAIMS.

Applicant's previously submitted Declaration/Affidavit was in response to the Examiner's requirement to provide dates of public disclosure and documentation regarding the Tens Cam device. As noted, documentation has already been provided. Clearly, Applicant has now provided dates that substantiate the different versions of TENSCAM that were publicly disclosed, and that the TENSCAM UNIT with a "SPHERE CRYSTAL LENS" WAS DISCLOSED ON OCTOBER 12-14, 2003, AFTER THE 2/27/2002 FILING DATE OF THE SUBJECT APPLICATION.

The TENS CAM was the subject of several TENS CAM MODELS as follows:

1. BASIC and Model 100-Crystal With Coil Wrap-First Public Disclosure 3/25/99.
2. Model 102-Sphere Lens & Coil Wrapped Crystal-First Public Disclosure 3/22/2002
3. Model 103-LED in front of Model 102-First Public Disclosure 10/12/03
4. Current Model-PULSE CAM-Subject of Current Patent Application Model 102 with perpendicular side mounted crystals(NO PUBLIC DISCLOSURE)

As can be seen, the Crystal Sphere lens was first publicly disclosed in Model 102 in 2003 which was AFTER the subject application was filed in February 27, 2002. Additionally, the side mounted crystals in the subject application have NOT been publicly disclosed.
